Berlin, Germany

Skills

- Python
- SQL
- CSS

- Google Data Studio
- Excel
- Git

Projects

COVID-19 Data Visualization - https://datastudio.google.com/embed/reporting/4f47490a-890d-4e31-822f-17c602b14c60/page/YBtcB

- Visualized COVID-19 data to outline patterns of the pandemic
- Extracted and wrangled data from a big dataset
- Provided an accessible way to understand data using visual elements
- Identified trends and outliers using effective data visualization

Mapping Space-related Data of San Francisco - https://www.chingchuhsu.com/portfolio/spatial-distribution-of-poor-children-in-san-francisco-ca/

- Deepened the understanding of real-world problems by mapping data
- Enhanced data by adding authoritative data
- Undercovered hidden spatial patterns using a set of intuitive analysis tools
- Refined data's story by visualizing data spatially

Personal Website - https://www.chingchuhsu.com/

Source - https://github.com/chingchuhsu/portfolio

- Built a personal portfolio website using Hugo Static Site Generator
- Optimized the design of the website with CSS
- Responsive layout made using good design practices taking accessibility into consideration
- Custom domain names with SSL encryption and email forwarding

Education

Humboldt University of Berlin - *Bachelor's degree in Social Sciences*

2017 - Expected graduation 2020
